## Emergency Weight Restrictions - BIA Roads

BIA Branch of Roads Department is imposing <b>EMERGENCY WEIGHT RESTRICTIONS</b> on the following BIA routes in order to prevent unacceptable deterioration of the road systems. A 24-hour grace period is granted.									
Adverse weather conditions cause roadways to become excessively soft and any freezing and thawing conditions further degrade the situation. It is deemed necessary to restrict the size of load and speed of vehicles utilizing BIA System Roads while this condition exists. Roads will be added or deleted from this list contingent on weather and road conditions.									
Please contact BIA Roads Department @ 509-634-2551, or CCT DOT @ 509-634-2540 with any questions/concerns or request for an application of a waiver.
